Platform jelly shoes 90s

After spending a semester in Spain, my roommate's love of jelly sandals finally got to me. + Follow With Lively's style influence, it's only a matter of time before jelly shoes start taking over the streets again. Alongside Crocs and Tevas, the '90s staple is one of the "ugly" shoes tiptoeing from celebrities' closets to the streets. So I put on three different versions: strappy slides, thong sandals, and platform sandals. Please update to the latest version. After all, what I most hated about them as a kid was their plasticky feel. I paired my Hush Puppies sandals with a white button-down shirt from Target and chartreuse shorts from Uniqlo for an effortless look to run some errands. But we never thought jelly sandals would stand the test of time. The appeal was lost on me. Find something memorable, join a community doing good. But after about three months, I admitted to myself I didn't want to look like I was 10 anymore. But this time, I wanted to get out of my comfort zone. (My feet are conveniently small enough to fit children's sizes.) They weren't too bad. The latter feature truly opened my mind to the possibility of adopting jelly sandals into my closet. Of all the jellies, these were the most aesthetically-pleasing to me. My feet arrived home pain-free. But three hours later, I wanted to run home to free myself from the blister hell I had just experienced. My look was only salvaged by the grace of a CJR ruffled hem. For a shoe that's supposed to be summer-ready, jelly sandals are one surefire way not to enjoy the season. The adult in me wanted to prove that a kid-like shoe could have a place in my 20-something's closet. These did little to change my mind. At first — styled with a black oversized shirt from Zara and white shorts from Target — they seemed like an innocent pair of sandals I'd wear on any summer. While she donned the classic strappy version in all-jelly material, I opted for a pair with a leather sole from Zara Kids. Lively was spotted heading out to lunch with husband Ryan Reynolds in New York City last week in a flowing floral Reformation dress, paired with layered necklaces and a face mask with attached chain. Unlike most of my classmates, I detested them because, even as a five-year-old, I could sense that the Puerto Rico heat and humidity were no match for the plasticky feel of jelly sandals. Jelly sandals are a controversial trend. Thanks to the constant touch of skin against rubber, they'd often generate blisters as well as a gel-like (and malodorous) dirt paste that would get caught in my classmate's feet. Buy It! Meanwhile, the thong-like strap lacerated my skin, leaving a bubble between my toes ready to pop-off at any given moment. While one pair stood out as the winner (I think we can all agree it was the Hush Puppies sandals!), the other two cemented my allergy to jelly sandals for good. The colorful (often sparkly!) shoe had a brief stint in popularity in the late 1990s, and it appears, thanks to the help of style trailblazer Blake Lively and major shoe brands bringing the material back in action, that the forgotten footwear trend is making a return. These boots can make your trousers look a bit cooler, add some weight to a mini skirt, and also pair really well with baggy jeans (or folded over overalls) à la Rihanna. In my opinion, good old Dr. Marten do the job. The actress, 33, sported a pair of closed-toe, buckled jelly sandals that brought us right back to the '90s. It was a familiar pain, one that I had only ever experienced with professional pointe shoes. I should have listened to my gut. On the first day of my experiment, I tried the Hush Puppies jelly strappy slides in "Caribbean Blue." The straps were thick enough to provide some sense of security in a slip-on sandal, and although they looked rubbery on the outside, they were soft on the inside. It was with great hesitance that I put on a pair of platform sandals with clear jelly straps from Forever21. More recently, brands from Hush Puppies to Zara have come out with their own versions. With the re-emergence of '90s and '00s styles, jelly sandals have also found their way into our collective psyche. So I kicked them off and never looked back. By the third pair, I was ready to give up because comfort is not something I am willing to sacrifice for the sake of cute shoes. I was happy with my Barbie-themed sneakers, thank you very much. The closest I ever got to wearing a pair was in 2015. I've never been a fan of thong fashion items — who wants a floss-like strand jamming your butt crack or toes every step you take? So far, the jellies were winning. Coach thong strap sandals. Coach thong strap sandals. That changed on the third day of my experiment, when I chose to wear a pair of Coach jelly thong sandals. As the saying goes, all trends eventually come back in style again. In a city as hot as Tucson in the middle of July, I was afraid the long-sleeve button-down and jelly sandals would be a nightmare scenario of sweat and blisters. The sharp-edged straps almost cut my sweaty skin, and they were so rigid I could barely take a step without wincing. (It's important to note I was a ballet dancer for 12 years, so my threshold for blisters is well above the norm.) The sole was drenched in sweat, unleashing a terrible flashback from my days in summer camp watching fellow campmates running around with feet drenched in petroleum-jelly sweat. But it was her shoes that really caught our attention. So to get you prepared, we found some similar options you can snag now. I paired them with a bright orange tank dress from the Christopher John Rogers x Target collab. According to Complex though, '90s kids in the U.K. made them huge as the "indie" boot. Back in 2020, Alexa Chung's second collaboration with Juju featured jellies, and Gucci released rubber slide sandals earlier this spring.
